Tasks

### IXAsset
Assets

### IXVision
Video analytics

### IXSend
SMS notifications

### IXSocial
AI-powered post sharing

# IXSignOn

A unified access system for diverse business solutions

iktex TECHNOLOGY COMPANY

01 Single-account access to all systems.

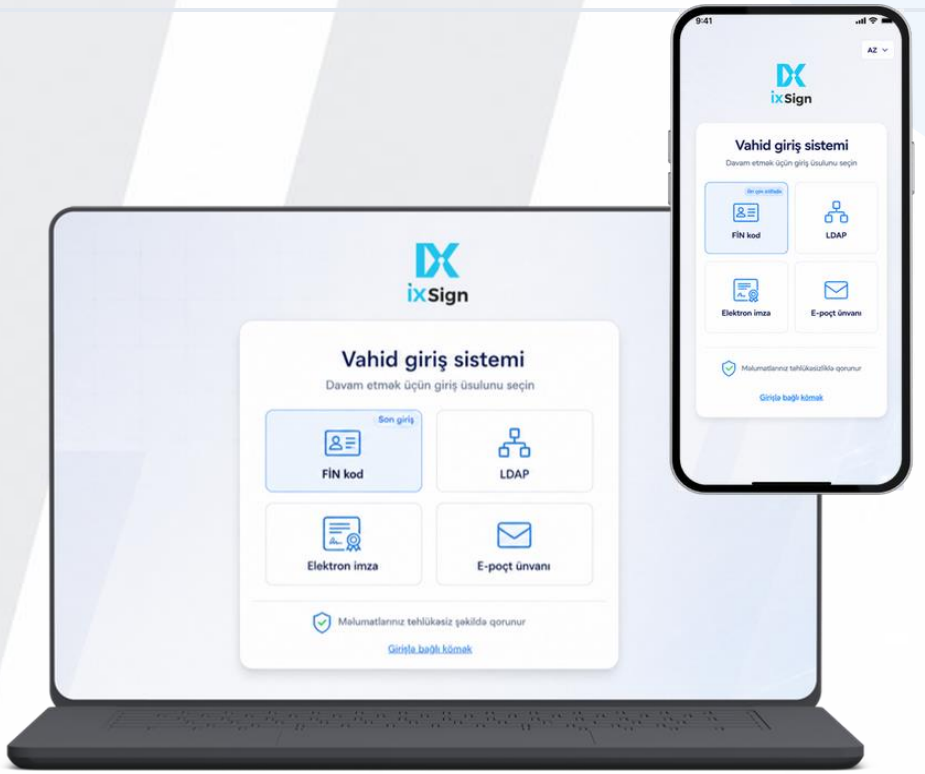

02 Secure multi-factor authentication.

03 Management of users, roles, and permissions.

04 Integration with various identification systems.

05 Centralized management of active sessions.

06 Login history tracking and audit.

**01 Need**

Different login credentials for multiple systems

**02 Solution**

A centralized single sign-on platform

**03 Result**

A secure, convenient, and controllable login process

# IXPeople

Human resources management system

iktex TECHNOLOGY COMPANY

01 Employee Management

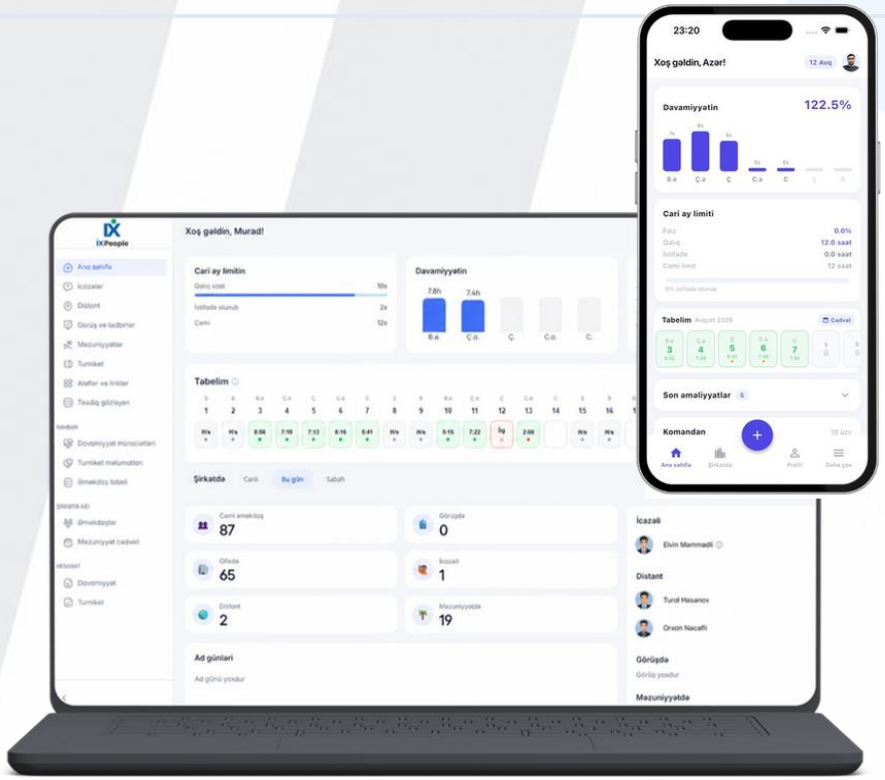

02 Attendance & Turnstile

03 Approval & Workflow Processes

04 Leave & Permissions

05 Timesheet & Working Time Tracking

06 Reports & Analytics

## 01 Need

Manual and fragmented HR processes

## 02 Solution

A unified digital management platform

## 03 Result

Automated, transparent, and efficient management

# IXPass

Employee attendance management system

iktex TECHNOLOGY COMPANY

01 Recording entry and exit for employees and visitors

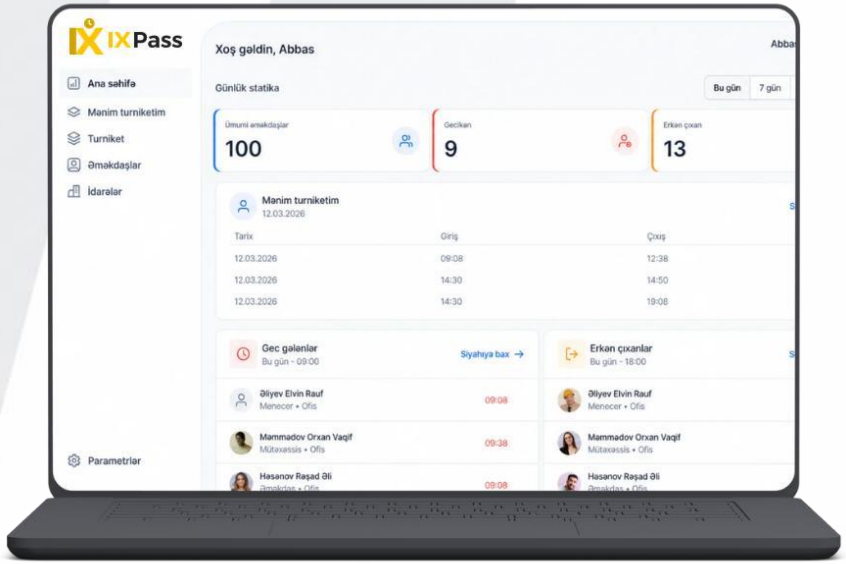

02 Management of access permissions and passage rights

03 Real-time tracking of entry and exit data

04 Automatic calculation of working hours and attendance metrics

05 Automatic alerts for unauthorized access attempts

06 Generation of entry, exit, and attendance reports

## 01 Need

Lack of unified, real-time control over entry and exit processes

## 02 Solution

Managing entry, exit, and attendance processes through a single system

## 03 Result

Enhanced security, transparency, and control

# IXDoc

Electronic Document Management (EDM) System

iktex TECHNOLOGY COMPANY

01 Dynamic document and template management

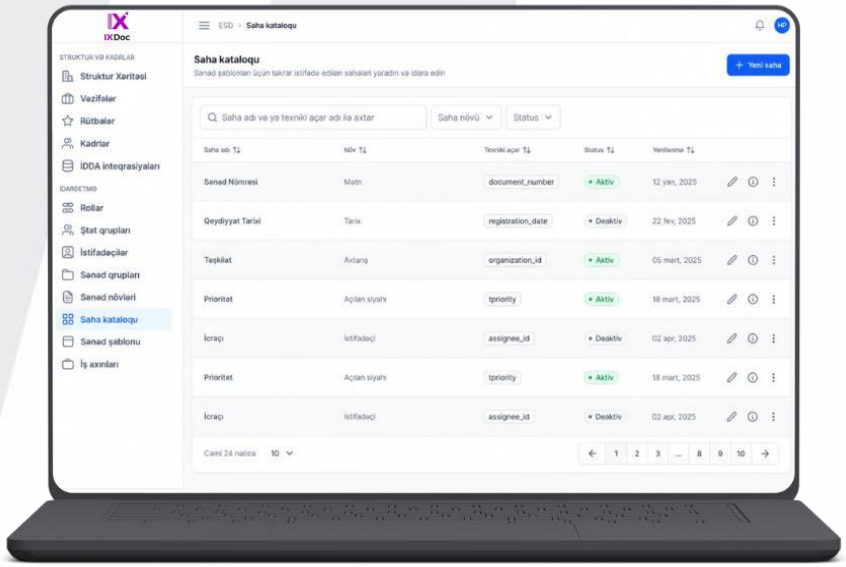

02 Registration, sending, receipt, and routing of documents managed from a single platform.

03 Dynamic workflows and tasks

04 Electronic signing of documents and management of the signing process.

05 Search, history, and version control

06 Integration with external information systems, data exchange, and process automation based on business rules.

**01 Need**

Complex and inflexible document workflows

**02 Solution**

A unified system manageable without touching the program code

**03 Result**

Fast, flexible, and easily adaptable document management

# IXInsight

Centralized and dynamic reporting system

iktex TECHNOLOGY COMPANY

01 Collecting and managing reports from various sources on a single platform

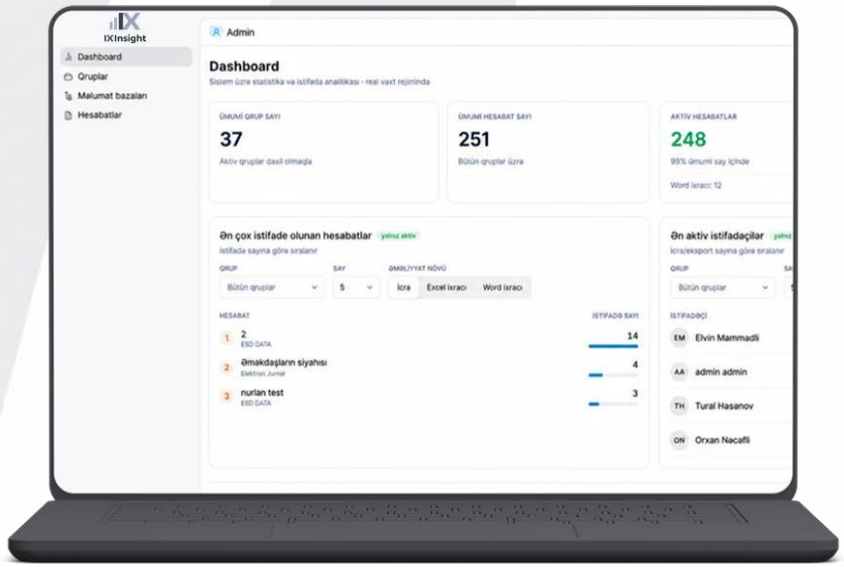

02 Real-time tracking of key indicators and statistics via a dashboard

03 Presenting data visually and clearly through charts and diagrams

04 Preparing ready-made Excel templates and exporting data to other formats

05 A convenient, accessible experience for different user groups thanks to a multilingual interface

06 Reducing the time and operational workload spent on report preparation through centralized data presentation

**01 Need**

Manual and fragmented reporting processes

**02 Solution**

A unified reporting platform

**03 Result**

Independent, fast, and visual reporting

# IXDesk

Request management system

iktex TECHNOLOGY COMPANY

01 Creating new requests and entering the required information

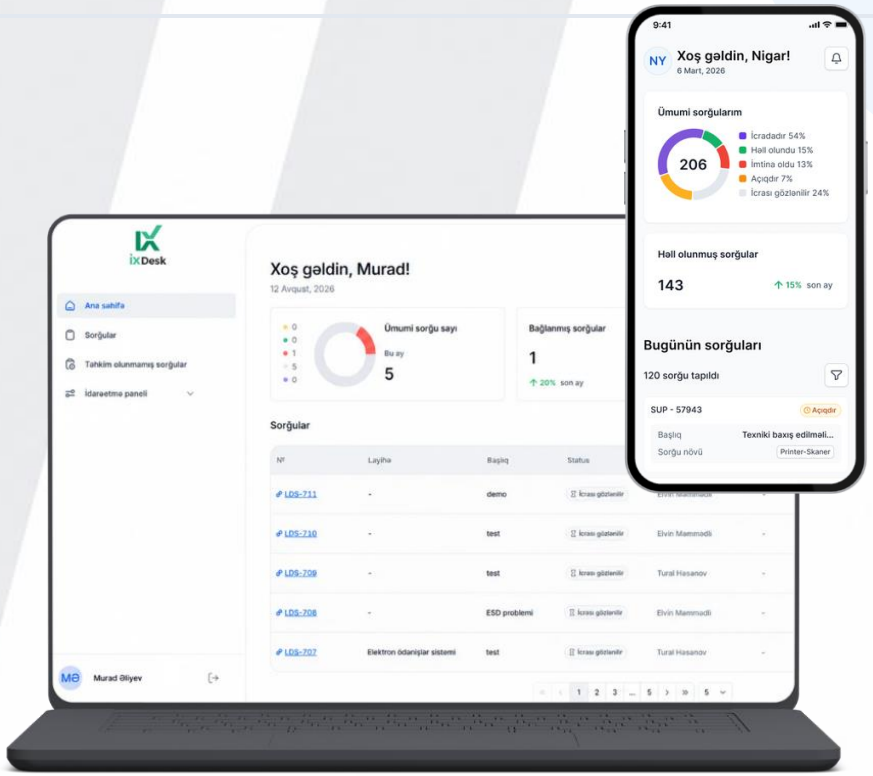

02 Routing requests to the relevant team and assigning them to an executor

03 Updating request execution status with all changes kept in a history log

04 Viewing and filtering a user's requests in a single list

05 Automatic notifications about changes.

06 Analysis of key indicators and outcomes for requests.

**01 Need**

Lack of a unified request platform

**02 Solution**

Managing requests through a single system

**03 Result**

Prompt execution and transparent oversight

# IXTask

Task management system

iktex TECHNOLOGY COMPANY

01 Creating tasks and assigning responsible persons

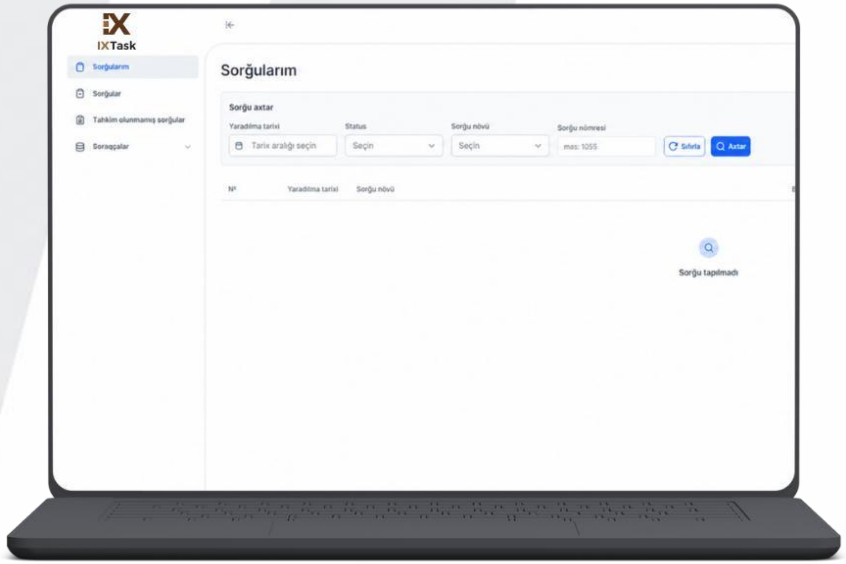

02 Setting task priority and due dates

03 Real-time tracking of execution status

04 Keeping a history of changes and activity

05 Automatic notifications about delays and updates

06 Analysis of task outcomes and key indicators

**01 Need**

Lack of a unified platform for task management

**02 Solution**

Managing and overseeing tasks through a single system

**03 Result**

Prompt execution, transparent oversight, and increased productivity

# IXAsset

Asset management system

iktex TECHNOLOGY COMPANY

01 Registering the organization’s assets in a single system

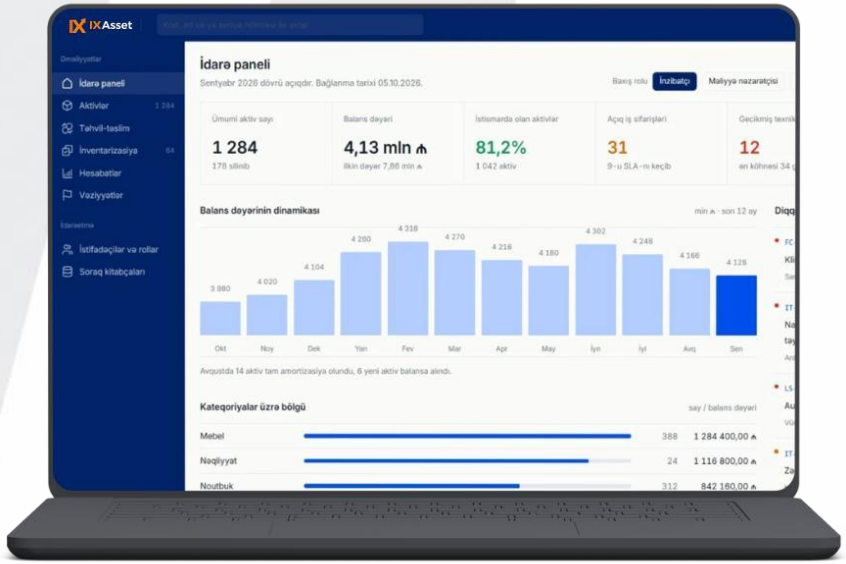

02 Tracking assets by location and responsible persons

03 Keeping a history of asset handovers and transfers

04 Managing maintenance, repair, and inventory processes

05 Automatic notifications about asset status and usage period

06 Analysis of asset reports and key indicators

## 01 Need

Lack of a unified asset tracking and record-keeping platform

## 02 Solution

Managing an asset’s entire lifecycle through a single system

## 03 Result

Transparent record-keeping, real-time control, and reduced asset loss

# IXVision

Video management and analytics system

iktex
TECHNOLOGY COMPANY

01 Collecting and storing video footage in a single system

02 Real-time monitoring of cameras

03 Searching archived footage by date, time, and location

04 Managing access rights to video data

05 Recording events and notifying relevant personnel

06 Generating reports on video data and events

**01 Need**

Lack of a centralized platform for managing video data

**02 Solution**

Monitoring, storing, and managing video footage through a single system

**03 Result**

Real-time observation, secure storage, and effective control

# IXSend

SMS notification system

iktex TECHNOLOGY COMPANY

01 User registration and authentication

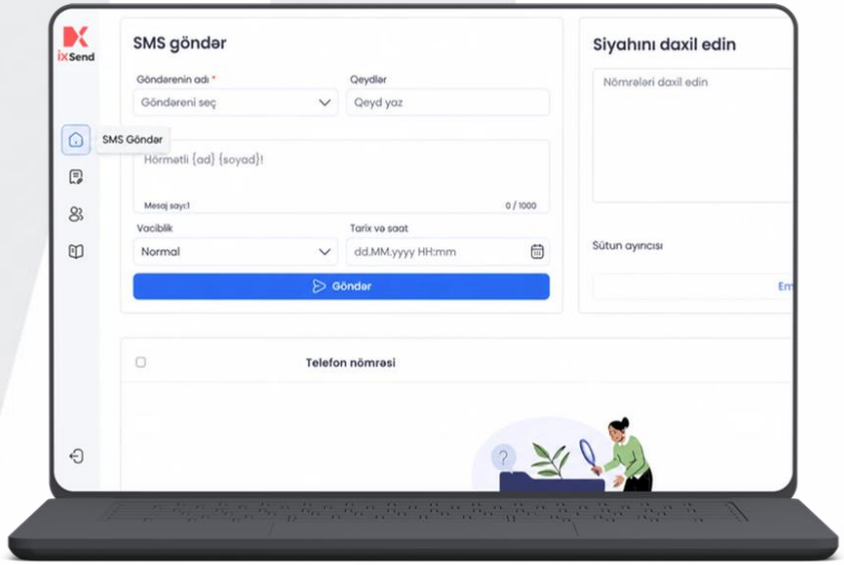

02 Single SMS sending

03 Bulk SMS sending

04 Contact and group management

05 Reporting and analytics module

06 Balance and payment module

**01 Need**

Delivering important notifications to citizens individually or in bulk.

**02 Solution**

Building a system that supports both single and bulk SMS delivery.

**03 Result**

Timely notifications with a high delivery rate.

# IXSocial

AI-powered platform for planning and managing social media posts

iktex TECHNOLOGY COMPANY

01 Managing multiple brands and social accounts from a single panel

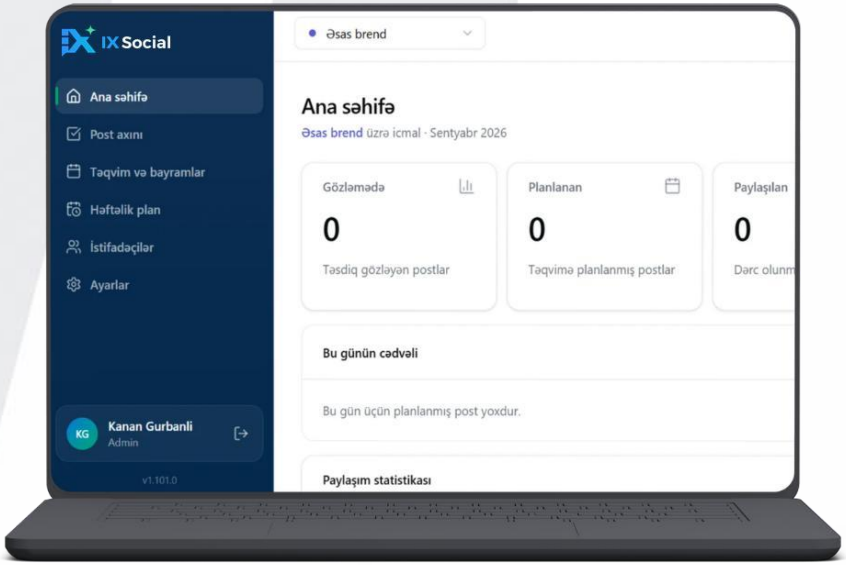

02 AI-generated post text and visuals

03 Calendar-based post scheduling and weekly planning

04 Post approval workflow and permission management

05 Content recommendations for holidays and special occasions

06 Post analytics and performance statistics

**01 Need**

Scattered and manual handling of social media posts

**02 Solution**

An AI-powered, centralized post planning platform

**03 Result**

Fast content production and transparent performance oversight
